Profile

Oluwagbenga is a professional who demonstrates composure and professionalism in specified roles. I am a detail-oriented PHP developer with a strong ability to create innovative, user-centered web applications. With experience in designing scalable solutions, I focus on building systems that improve business efficiency and enhance user engagement. My skill set includes developing seamless user interfaces, robust back-end solutions, and efficient content management systems. I am dedicated to leveraging my expertise to help organizations streamline operations, increase productivity, and deliver exceptional user experiences.

Projects

- *Christian Aid Organisation.* | [Donation](#)
 - *Developed a comprehensive web application Christian aid organisation, enabling donors to create accounts, make donations, and manage their profile details.*
 - *Admins can easily locate donor details via a custom dashboard, while donors also have access their data.*
 - *Additionally ,the platform features a question and feedback form on the landing page, allowing donors to interact with the organisation, with admins receiving notifications and responses via email.*
 - *The application includes a dynamic blog management system, allowing admins to publish, delete, and manage blog content.*
- E-commerce for a gift shop. | [SHOP.](#)
- Bootstrap 5 Frontend Demo — Personal Project
- Technologies: HTML5, Bootstrap 5.3.8, JavaScript (Vanilla), PHP (XAMPP)

Built a responsive web page using Bootstrap 5 CDN, demonstrating core UI component integration

Implemented a dynamic live alert system using vanilla JavaScript — clicking a button dynamically injects a dismissible Bootstrap alert into the DOM without page reload Constructed a styled data table using Bootstrap's table utility classes (table-primary, table-danger, bg-success) to display structured user data

- Deployed locally using XAMPP Apache server for rapid development and testing
- Applied Bootstrap's grid-ready viewport meta configuration for mobile-first responsiveness
- **Abokee Wings travel agency website | [TICKETTING.](#)**
 - Developed a dynamic website for an Airline , showcasing its luxurious features and amenities.
 - Website includes an interactive gallery, virtual tour, and booking system.
 - Utilized PHP, HTML, CSS, and JavaScript for a responsive and user-friendly experience.
